

## Congratulations Graduates!

Four years (or more) of sweat and toil. Four years of homework. Four years of wondering when is it all going to end and here you are. Way to go. We want to give you a graduation present. Bring us proof that you really graduated (diploma, final report card, etc.) and we'll buy you a free burrito. Just remember everyone will tell you it only gets harder from here or the best is yet to come. You have to decide which one of these is more true.

### When we are well, we all have good advice for people who are sick

National Nurses Week is May 6 – May 12  
 National Nurses Day is May 6 – All nurses get a FREE burrito today. If you can tell us why Nurses week ends on May 12 we'll include a FREE drink too

### HAPPY MOTHER'S DAY TO OUR MOMS

### Graduation Parties are our specialty

The first catering event Habanero's did back in 1997 was a graduation party. Since that time we've probably done more graduation parties than any other single event. Most of May is booked but there's still a few dates available and June is filling up fast. There's no better way to celebrate finishing school than a backyard party with the best burritos or tacos in San Antonio. **If you mention this newsletter and book your graduation party before June 14 we'll treat you to a FREE ice cream cake for any catered event over \$250.**

### Habs Sunset Special

It dawned on me as I watched the sun set from the patio of Habs 2 how rarely we take time to "stop and smell the roses" or watch the sunset. Under the trees on the patio of Habs 1 is beautiful at sunset and sitting on the covered patio of Habs 2 and watching the sun set over the hills is breathtaking. So we want to give you a little extra incentive this month to relax and enjoy a sunset. Sunset all month is between 8:00 and 8:22 so come by anytime to either location between 7 and 8:30 and get our "Sunset Special". It includes *a burrito of your choice, a drink of your choice (small marg or beer included) and a small chips and queso all for only \$8.00.* Sit back, relax and enjoy, it's an unbeatable show.

### Special Gifts for Moms all month long

We had so much fun with our No Peeking promotion in December we're bringing back our Mother's Day version for We Love Mom's Month. All month long, if you're a Mom ask for our special We Love Mom's envelope. Every envelope has something special in it for you. Some will be a free drink, others, a free burrito, maybe you win the free catered party for 10 or the free massage. There's lots of great gifts but just like before, there's no peeking. You have to bring the envelope back in and open it at the cash register in June. Every envelope is a winner. So, the more you come in this month, the more envelopes you can collect.

## Your College Major = How Long you Live

**Can't decide on a college major? Choose science, engineering, or medicine. According to research from Ireland's Queens University in Belfast, students who major in these subjects live the longest.**

The study, which was published in the Journal of the Royal Society of Medicine, examined the medical records and death rates of 8,367 male students at Scotland's Glasgow University who matriculated between 1948 and 1968. It is believed to be the first study to examine the association between university degree subjects and mortality, reports the Financial Times of London. Why there is any correlation at all between field of study and longevity is still not known, and lead researcher Dr. Peter McCarron cautioned that the conclusions in the study are speculative at best.

### **Here are the highlights by major field of study:**

**Medicine, Dentistry, Veterinary Sciences:** Medical students lived the longest of all, but they were the most likely to suffer an alcohol-related death. This was also the third most likely field--after law and divinity--to die from an accident, suicide, or violence. Although medical students were the second heaviest smokers while in college, they kicked the habit once they graduated since their death rates from lung cancer were so low.

**Science and Engineering:** Since these students were least likely to smoke, they had similar mortality rates as the medical students. They also had the lowest heart disease rates overall.

**Theology:** Although divinity school students had the lowest blood pressure and were the least likely to drink alcohol, they were twice as likely to die from respiratory diseases later in life. Overall, they had a 10 percent greater risk of death than the medical students. Oddly, theology scholars were the most likely of all to succumb to a fatal accident, suicide, or violent death.

**Law:** Students of the law died the earliest of all majors except liberal arts and social sciences with a 30 percent higher risk of death than the medical students. Their untimely demise can be explained by this: They were the heaviest smokers.

**Liberal Arts and Social Sciences:** These students, like their friends who studied law, died the earliest, but they were only half as likely as medical students to die by suicide or an accident. However, they were twice as likely as medical students to die of lung cancer due to their propensity to smoke. Overall, their risk of death was 42 percent higher than the medical students.

## Movie Trivia by Santikos Theatres

It's time for the early Summer releases and as usual there are some big hits anticipated. The early odds on favorite to be a huge blockbuster is **Iron Man 2**. Following the other hugely successful comic book action hero movies this one is as good as it gets. If you have kids you'll have to go see **Shrek Fourever After**. They haven't made a bad one yet and if you like chick flicks of course you'll see **Sex in the City 2**. Are you noticing the trend here. All the big movies are sequels. So trivia this month is what is the top grossing sequel of all time. Email answers to [burritoguy@habanerosgrill.com](mailto:burritoguy@habanerosgrill.com) First ten correct answers go in a drawing for two free movie tickets and dinner for two.

Congratulations to **Phillip Rendon** for winning April's trivia contest. The answer was Susan Sarandon.

## GO SPURS GO

I don't want to jinx things by getting ahead of myself but I wouldn't care if they lost the rest of their games. The way they punished Dallas in games 2 and 3 was awesome. Mark it down now, if they win it all we'll have a Matt Bonner Championship Party that will rival the Riverwalk parade. Until then, wear in your Spurs gear on any game day and get a FREE drink with any entrée purchase.
